EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Alfred Froebrich on 07/28/2005.

The application has been amended as follows:

Page 9, line 11, "in the direction of the arrow" has been deleted.

Page 12, line 14, "C-C" has been changed to -- IV-IV --.

2. The following is an examiner's statement of reasons for allowance: The prior art neither teaches nor discloses

"a cam control system for controlling an adjustable stroke limitation, said stroke limitation being adjustable to a winding radius,

an integrated braking device with an adjustable breaking force in response to a winding radius" in combination with the remaining claim elements as set forth in claims 9-16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Moestue (US 4,058,059) discloses a "washing and cleaning device for cylinders" that comprises a "clean cloth roll, a wash roll, and a dirty cloth roll," (Fig. 9) and an "integrated braking device generating a braking force for counteracting a pulling direction of said intermittently operated drive" that is "adjustable in response to the winding radii of the cleaning cloth on said dirty cloth roll" (Fig. 6 and column 2, lines 35-65).
